

Through the use of mobile devices and a SECURE website, CompTracker® enables students, instructors, and administrators to **REPLACE the old PAPER ways** of tracking students.

CompTracker is an **EASIER, GREENER** way to stay updated AND report on your students!

## ESCAPE FROM PAPER!

*"When we began offering the Primary Care Paramedic Program we had been using a paper log book. The task of monitoring students and their progress through competencies was a significant challenge. Once we contacted Great Big Solutions and adopted their CompTracker software, everything got much easier."*

*The ability to view a student's progress while they are on practicum and provide feedback during their experience makes for a much cleaner, efficient learning opportunity. The records CompTracker keeps makes for easy, understandable reporting and a great QAI/QI process. I can confidently state that Great Big Solutions and CompTracker were a major contribution to our school receiving a 6-year accreditation from the Canadian Medical Association."*

*"This has been one of the most amazing experiences of my life. Going back to school at 39 years of age, nervous and scared, wondering if I would be able to handle every and all components of my Advanced Care Program..."*

*The other huge concern was all of the paper work that would have to be done when going on practicum; however, CompTracker has allowed me to breathe a nice sigh of relief.*

*This is the most user friendly program I have ever encountered, I know I would be a mess and very unorganized if not for this program. Thank You."*

Holland College*
