

## SEPTEMBER 2011 NEWS

As part of our busy agenda, this month, we celebrated 'Children's book week', The Sutherland Shire Libraries sent a librarian to present a group time activity to the children, here the kids had the opportunity to listen fun and educational stories, these reading sessions are run and coordinated by the council on a regular basis across the library network through the shire, and all parents are welcome to use these activities and resources, as a great tool to introduce your child to the new age libraries services available

It was fantastic to see kids sitting and paying attention to the stories, and participating, even when questions were asked, my children were able to guess the answers, and interact with the host in a most confident way.

Back at kindy, we read the *story my beautiful book*, kids were engaged in the story, that every time I said what is it? everyone said at once: *A book!*

When finished our story, we decided to share our ideas, why books are so important?, everyone got the chance to think and reflect about the question, giving me different answers and reactions

Kids found booklets at the craft table, they loved drawing, pasting and putting stickers on it, here they made up their own stories... based on dinosaurs (our new toys for the week)

Chiquitos Family Day Care is currently doing enrolment for 2012, positions available for the age of 15 months onwards. Position available from Monday to Thursday.
